[†] Source: U.S. Department of Health and Human Services, Office of the Assistant Secretary for Planning and Evaluation Surveillance Data.

* Indicates Part D sponsor call centers that did not have data for the current reporting period, but did have data available during 03/09/06 to 05/03/06.

¹ America's Health Choice is currently facing regulatory action that may lead to contract termination, due to a persistent pattern of failure to comply with Medicare requirements.

² Universal Health Care, Inc., has been notified that they will face further sanctions if it does not allow survey calls (this plan is not renewing its stand-alone PDP, contract number S4231, in 2007).

Comment: Data shown as "not surveyed" indicates that technical issues prohibited the collection of data during that survey period; call information is being collected now.
